Organising JAM Session in English Virtual Classroom

JAM sessions are very important for improving communication and speaking skills. This is a short and simple activity that takes only one minute time to give a talk to develop the speaker's speaking skill as well as their flow of thoughts.

JAM speech includes rich vocabulary and grammatical structure. These are helpful to promote the learners to have a good discus-

sion about the topic taught in their classroom.

The JAM sessions are being conducted in English class where all the students are given a chance to speak on a given topic for a minute on the spot.

These are one of the best activities for improving the speaking skills and to modify the behaviour of the students. What makes it even more challenging is that the topic will be given on the spot without any time to think. It helps in checking many factors like spontaneity, creativity, sentence structure, fluency, pronunciation and voice modulation.
